

**CARBOXAMIDE AND AMINO DERIVATIVES AND METHODS OF THEIR USE****ABSTRACT OF THE DISCLOSURE**

**[0219]** Carboxamide and amino derivatives, pharmaceutical compositions containing these compounds, and methods for their pharmaceutical use are disclosed. In certain embodiments, the carboxamide derivatives are ligands of the  $\delta$  opioid receptor and are useful, *inter alia*, for treating and/or preventing pain, anxiety, gastrointestinal disorders, and other  $\delta$  opioid receptor-mediated conditions.
